## Medical Lab Technician Diploma Program (39 Weeks)

### Program Summary

Confidence, attention to detail, responsibility and experience (C.A.R.E.) are the objectives of the Medical Laboratory Assistant/Technician Diploma program. Emphasis is placed on understanding the diversity of office and laboratory techniques, ethical responsibilities and the student's position in the healthcare field, while working under the direct supervision of a Physician, Certified Medical Technologist or other Health Care Professional. Graduates of this program will have the skills/prerequisites to apply to write the Ontario Society of Medical Technologists (OSMT) certification exam. This exam is offered twice a year.

### Employment Opportunities

Graduates have a wide range of options when deciding where to apply their skills in the Medical Laboratory Technician field. Some settings to consider include hospital labs, physician's office, private diagnostic testing laboratories, walk-in clinic or many other types of medical office settings.

### Admission Requirements

- Grade 12 or equivalent or mature student status (18 years of age).
- Passing score on the entrance evaluation.
- Successful interview with a Registrar.
- Letter of recommendation.
- Up to date immunization

### Graduation Requirements

- An overall average of 70% must be obtained to graduate.
- A minimum mark of 60% must be achieved to pass any given credit.

### Graduation Statistics

- The campus Registrar will provide each applicant with current Key Performance Indicators for his/her program.
- Applicants can view KPIs on the Trillium College website and at [osap.gov.on.ca](http://osap.gov.on.ca).
